CLOSURE

It is unnecessary to move "That the Question be now Put" when no Member has risen to continue the Debate *May* 29 [336] 1387

Mr. Conybeare's Amendment on Committee of Supply reflecting on the Speaker for applying the Closure, questioned the exercise of the Speaker's discretion and the votes of the House ratifying it. "The hon. Member has power to question the exercise of discretion by the Speaker, but he cannot do so by an Amendment to the Motion, 'That the Speaker do now leave the Chair,' because that would give no opportunity to any Member, if he desired, to move an Amendment traversing the Motion of the Member for Camborne. If the hon. Member objects to a vote of the House, it is not competent for him to call it into question by an Amendment to the Motion that the Speaker do leave the Chair, but he must move a substantive Motion asking that the vote of the House be cancelled. It is a matter entirely for the House to sanction or refuse the application of the Closure. If the hon. Member wishes to question the Speaker's conduct, or the conduct of the House in a particular vote, he must submit a substantive Resolution to the judgment of the House" *June* 28, 1021 [337] 1023

Report Stage; Scope of Discussion; Operation of the Closure Rule *July* 17 [338] 640, 644

When the first Question on the Amendment is decided, the main Question is proposed, and if objection is taken thereto it is quite in order to move the Closure pursuant to the New Standing Order *Aug* 8 [339] 802

COMMITTEES

Procedure to secure reference of a Bill to a Standing Committee, notwithstanding that at date of Second Reading such Committee was not appointed; the hon. Member in charge may, on the Motion to com-

Nomination of Committee—The Rules do not permit of more than two Speeches on each Name *May* 27 [336] 1171

Question raised upon a particular Name on Appointment of Committee not permissible. It may come in a Motion for an Instruction to the Committee *May* 27 [336] 1173

Instruction to Committee treating with matters requiring separate Legislation is out of order *July* 4 [337] 1503

Motion for Instruction to Committee (Local Government [Scotland] Bills) could be moved as a substantive Motion, as the terms indicated in the Motion would not be within the power of the Committee without special instruction from the House *July* 4 [337] 1495

On Motion as to number of Members on a Committee, a Member is not in order in discussing the antecedents of a proposed Member of the Committee *July* 9 [337] 1842, 1843

Instructions to Committee are out of order when it is not necessary to instruct Committee in a matter they have already power to deal with *July* 30 [338] 1725

It is a consequential Motion, to move to refer a Bill to a Select Committee, the Bill having been before the Examiner who has decided that it comes within the Standing Orders. There is no other Committee to which it can be referred *July* 30 [338] 1789

Mr. Speaker declines to constitute himself a Court of Appeal from the decisions of the Chairman of Committees *Aug* 8 [339] 802

The Instruction to Committee does not open up a Second Reading Debate; only the specific Question concerned in the Instruction is introduced *Aug* 12 [339] 1041, 1043, 1047

If the Chairman of Committees is of opinion that the Clause cannot be inserted in Committee, the Bill can be Re-committed for the purpose of inserting it *Aug* 12 [339] 1070

Appeals cannot be made to the Speaker on Points of Order arising in Grand Committees, there being no such appeal from the decision of a duly constituted Chairman of a Grand Committee. It cannot be admitted as a general rule that Amendments hostile to a Bill may not be admitted. Proceedings in Grand Committee are so far in lieu of Proceedings in Committee of the Whole House that there is no stage of Committee of the Whole House in the case of a Bill which has been referred to a Grand Committee. The matter is not one of Privilege, but at most one of Order. Differences between Rules applicable to proceedings in Committee of the Whole House, and those applicable to proceedings in a Grand Committee *Aug* 14 [339] 1226

In order that a Bill which has been before a Standing Committee may be considered by a Committee of the Whole House, it is necessary, when the Committee present their Report, to make a Motion to suspend the Standing Order *Aug* 14 [339] 1227

It is for the Chairman of Committees to decide when the House is in Committee whether, an Instruction having been refused by the House, Amendments which might contravene that Instruction as such can be moved, notwithstanding the refusal of the House to grant the Instruction at an earlier stage *Aug* 15 [339] 1360

PETITIONS

It is unusual to read the terms of a Petition; the substance only should be given *May* 24 [336] 935

A Point of Order on presenting a Petition must be dealt with by the Select Committee on Petitions *June* 25 [337] 693

PRIVILEGE

Strangers in the Lobby *Feb* 25 [333] 269; *Feb* 26, 386

Any case of perjury before a Committee of the House is an offence which constitutes breach of Privilege upon which the House could immediately take action. The matter should be put on the Paper so as to draw special attention to it; *i.e.*, with a line separating it from the other Orders of the Day. As it is a question of Privilege, names of Committee can be proposed immediately, though possibly that course may be objected to if the House thinks proper *July* 15 [338] 414, 415

There are several instances in which Orders of the Day and Notices lower down on the List than others have been taken first on ground of Privilege *July* 23 [338] 1089

Naval Defence—On Report of Res.—Not admissible to raise discussion as to Naval Estimates Committee, but Questions allowed *April* 8 [334] 1812

It is unusual to Adjourn the House before the Orders of the Day are disposed of *April* 16 [335] 656

A correction of a statement of fact is not a Point of Order *April* 10 [335] 162

Impossibility of discussing all four Scotch Local Government Bills together; Bills 1 and 2 might be discussed together following the precedent of English Local Government Bills *May* 13 [335] 1862

Motion on Paper corresponding with Motion for Adjournment of the House—Ruled in favour of Motion for Adjournment of the House because of its urgent character *May* 27 [336] 1138

Questions affecting a large area and of great public importance [the Bill under discussion was the Coal Duties (London)

[*cont.*

SPEAKER, THE—*cont.*

Abolition Bill] ought to be dealt with in public and not private Bills. If private rights are affected, or statements in the Preamble not well founded, any Member may move on the Second Reading that it be referred to a Committee of any kind *May* 22 [336] 702

Mover of Second Reading, when he has once spoken, has no right of reply *June* 3 [336] 1790

To go through a Bill clause by clause on the 2R. is unusual *May* 31 [336] 1578

No Second Reading speech can be made upon the withdrawal of a Bill. The question to what day it should be postponed, or the circumstance under which it is withdrawn, may be gone into *July* 1 [337] 1167

Amendments will come on after Motion is agreed to "That Bill be now considered" *July* 8 [337] 1705

A point proposed to be raised which has been previously specifically gone into, although it may be alleged that the information then before the House was insufficient, and that it may be desirable at a subsequent period to discuss it, is not necessarily a matter of urgent public importance which should be discussed on Motion for Adjournment of the House. If new information has come to knowledge the whole question may be raised in Supply *July* 8 [337] 1697

A personal statement may fairly be made on Motion for Adjournment, but charges must not be made, as they cannot be then answered *July* 8 [337] 1701, 1702, 1703

Motion for Adjournment of the House to discuss a matter on resumed Debate on a Vote of Supply, and upon which matter a Motion is already on the Paper; hon. Member doubly precluded from bringing forward the Motion *June* 27 [337] 899

Business of the House—Scope of discussion on Motion to give priority to Government Business, &c. *July* 11 [338] 141, 142, 145

Discussion of Clauses inadmissible on Motion to Re-Commit *July* 24 [338] 1185

It is irregular, after the House has ordered a limited Return for a special purpose, for a Member of the Government to add to the Return, of his own Motion, matter extraneous to the Motion passed by the House and giving an entirely different character to the Return *July* 30 [338] 1717

SPEAKER, THE—*cont.*

The One o'clock Rule *Aug* 6 [339] 652

The Question before the House being the Suspension of Standing Orders, a private Bill may be considered *Aug* 8 [339] 747

Upon consideration of a Bill, it is not competent for an hon. Member to widen its scope by increasing the amount provided for in the measure *Aug* 8 [339] 749

It is irregular to raise a Point of Order after the Business has commenced, and after the occasion on which the Point of Order arose *Aug* 8 [339] 802

If when half-past Five is reached an Amendment to a Question is then being decided by a Division, the time of the interruption of Business is thrown forward *Aug* 8 [339] 802

If the words "I object" reach the Speaker's ear, it is not necessary for him to know whence they proceed *Aug* 9 [339] 992

The practice of the House has unquestionably been, when a Bill has been transformed by the introduction of Amendments in Committee, that a new Bill should be introduced, leave given to introduce it, and the Second Reading stage should be gone through, when the general principles of the measure as distinguished from its component Clauses can be affirmed *Aug* 16 [339] 1488

It is not possible for an hon. Member to discuss the merits or demerits of a Bill on a Motion for the discharge of the Order *Aug* 16 [339] 1493

The House having exempted a Bill from the Twelve o'clock Rule, it is unreasonable to put a Motion for Adjournment at a few minutes after Twelve *Aug* 19 [339] 1733

It is not in Order, when a scheme is before the House, and an Address to the Crown is moved against such scheme, to move an Amendment that that particular scheme be referred to a Select Committee *Aug* 20 [339] 1741

Appropriation Bill — Discussion of such Questions as the Land and State of Agriculture not in Order on the Appropriation Bill when unconnected with Government Bills. Discussion on the abstract Question of the Liquor Traffic or the Sunday Closing Bill out of Order. Advocacy of a general change in the law not relevant *Aug* 28 [340] 788, 800
